

# A Great Place To BEGIN!

**VISION CARE OF MAINE** has been providing excellent eye care and service to the people of Northern Maine for 37 years. Our modern clinics and surgery centers are located throughout the state of Maine. We are still growing and we would like to invite you to join our team of Optometrists and Ophthalmologists and start your career with us.

You will have a diverse clinical experience providing care ranging from complete eye examinations, contact lenses, management of glaucoma, cornea and retina patients as well as pre and post operative care for cataract and LASIK patients. You will be supported by subspecialty trained ophthalmologists, experienced optometrists and a top notch technical and administrative staff who are committed to providing excellent patient care and service. This makes **VISION CARE OF MAINE** a great place for your first experience in private practice. Your success is our priority!

We offer a competitive base salary and a generous incentive compensation plan as well as excellent benefits and support for continuing education and professional development.

*Moving here was the best decision I ever made.*

—Luke Gamble, OD

Our main office is in the city of Bangor, in the heart of Maine which offers metropolitan conveniences and serves as a gateway to the mountains, lakes, ocean and the natural beauty of Maine. Our central location is the best of both worlds: a friendly and safe city that's filled with excitement offering culture, music, education, fine dining and four seasons of outdoor activity including, golf, sailing, skiing and fishing.

You have worked hard to become a doctor. Choosing where to start your practices is a big decision. I welcome the chance to learn about you and your personal and professional aspirations. We can both learn whether we share a common vision in a brief telephone conversation. I encourage you to send me your CV and let me know when we can talk.
